Dear Alder MS Parents & Guardians,

The summer vacation is winding down and no doubt you working with your student to get organized for the virtual opening of the school year on September 8th. Here are a few tips and reminders to assist you as we work together to get off to a good start.

As a reminder, all students in Grades 6-12 will receive and utilize district email addresses that will be used for communication with teaching staff. Go to the EHT School District website, click on Alder and go to Student Resources. Here students will find their and utilize their current Google/Network login and password to access the email. A word from our teachers, **PLEASE HAVE YOUR STUDENTS CHECK THEIR EMAIL**. In addition, please have students check their teacher websites.

Next be sure to **follow the daily schedule for your student's grade level that we mailed to you in the parent letter you received on August 31st**. Teachers will also be posting the schedules on their websites. Your child will also be following a Day1/Day 2 schedule which you will receive and will also be posted on the school website.

As a reminder, Resource Distribution will take place next week as indicated in the schedule previously provided and also posted on our school website. If your student's teachers indicate that you do not have resources to pick up they will let them know via their email and websites. Some teachers are providing all resources virtually. Students should look to their email and teacher websites to be sure.

Things may seem confusing as we start our school year virtually for the first time but we will continue to work together to assist your student with this transition.

Sincerely,

Maryann Giardina, Principal
Marjorie Fopeano, Interim Principal
